AWARDS & RECOGNITION

L&T TECHGIUM FINALIST - LARSEN & TOURBO LTD

TECHgium® is an open innovation competition that allows students to work on major engineering challenges being faced by the industry today. I took the challenge to bring a practical solutions mindset to the industry and not limit it just to theory. I took the lead role of my team and explored more about the concepts and Worked on my projects as well as presentations. This has made me well-versed in project idea thinking. This is not my ending and I will achieve more.
